

Eng. NEHEMIAH KIBET

Nairobi, Kenya • +254 794 249 775 • nehemiah.kibet77@gmail.com

Portfolio: <https://neshkibet.vercel.app>

PROFESSIONAL SUMMARY

Mechatronics & Software Engineer with hands-on experience in **IoT, process automation, full-stack development, and facilities management**. Bridges the gap between technical systems and business outcomes — equally fluent in **PLC programming, cybersecurity, n8n automation, and facilities project delivery**. Proven track record in banking, automotive, and academic environments.

WORK EXPERIENCE

Commercial Services (Facilities & Projects Management) | NCBA Bank Kenya

Nairobi, Kenya | Apr 2025 – Feb 2026

- Coordinated daily facilities operations across multiple bank branches and offices to ensure uninterrupted banking functions.
- Implemented **PPM and corrective maintenance** for HVAC, generators, inverters, UPS, lifts, water treatment, and note counters and sorters.
- Ensured **statutory compliance** (OSHA, NEMA, Public Health, fire safety) and supported internal and external audits.
- Assisted in project delivery and completion of new bank branches as well as refurbishment of existing branches in coordination with quantity surveyors, engineers and contractors.
- Managed **contractor SLAs, invoice certification, and budget monitoring** for cost optimization.
- Drove **energy efficiency, water conservation, and sustainability initiatives** across facilities.
- Automated internal workflows and supported **business continuity planning** from a facilities perspective.

Full-Stack Developer | DeKUT CDED Center

Nyeri, Kenya | Jan 2023 – May 2023

- Built scalable web applications, improving workflow efficiency by 30%.
- Integrated **IoT solutions** for campus automation with cross-functional teams.

Automotive Technician | Porsche Center Nairobi

Nairobi, Kenya | Jan 2022 – Apr 2022

- Performed diagnostics, servicing and repairs on luxury vehicles → **95% client satisfaction**.
- Assisted in training technicians on advanced automotive systems and troubleshooting protocols.

EDUCATION

- **BSc in Mechatronics Engineering** – Dedan Kimathi University of Technology (2019–2024)
- **Software Engineering** – ALX Africa (2023–2024)
- **Diploma in Computer Programming** – Zalego Academy (2019)
- **KCSE (A-)** – Kapsabet Boys' High School (2018)

SKILLS

- **Automation & IoT:** n8n, AI agentic automation, prompt engineering, Node-RED, C/C++, Python
- **Full-Stack Development:** JavaScript, Django, SQL, Git, Docker, Kubernetes
- **Facilities & Projects Management:** PPM, HSE compliance, contract & SLA management, budgeting, sustainability driven.
- **Cybersecurity:** Ethical hacking, vulnerability assessments (IBM Certified)
- **Automotive Diagnostics:** Repair & servicing (Porsche Centre certified)
- **Unix Systems:** Operations and troubleshooting
- **Interpersonal skills:** Leadership, problem solving, team player

PROJECT EXPERIENCE

- **IoT-Based Digital Twinned Smart Elevator System** – Dedan Kimathi University
- **Automotive Diagnosis & Repair** – Porsche Centre, Nairobi
- **Full-stack software development** – Progressive web apps, mobile apps
- **Facilities Management** – Repair & maintenance, budgeting
- **Projects Management** – Initiation to completion, documentation
- **Process Automation** – Caretaker-manager approval system, Smart event attendance system
- **Personal Projects** – My other projects can be found on my portfolio website

CERTIFICATIONS

- NCBA Certified Professional (2025)
 - IBM Certified Cybersecurity Analyst (2024)
 - Certificate in Software Engineering – ALX Africa (2024)
 - BSc in Mechatronics Engineering (2024)
 - Porsche Certified Technician (2022)
 - KCSE (A-) – KNEC (2019)
-
